A highly motivated and adaptable **Software Developer** with 4+ years of experience designing and implementing reliable, scalable, and secure web applications. Proficient in backend technologies including **Node.js**, **Nest.js**, **Laravel (PHP)**, and database design, with expertise in **RESTful APIs**, **authentication/authorization**, and **cloud deployment**. Adept at building high-performance backend systems that drive user-centric solutions across diverse industries. Additionally skilled in **Next.js** and **React** for developing modern, responsive front-end interfaces when needed. Experienced working in fast-paced, multicultural teams, applying agile best practices, and writing clean, maintainable code. Strong problem-solving mindset with a proven ability to optimize performance, ensure system reliability, and deliver high-quality results across all stages of the software development lifecycle.

📁 Professional Experience

Full Stack Developer (Freelance), Xynotech MM

02/2025 – present
Myanmar, Remote

- Developed a Learning Management System (LMS) website using Laravel, which streamlined course management for both instructors and students, enhancing user engagement and satisfaction.
