Professional Summary

Senior Full-Stack Engineer with 5+ years of experience building and supporting business-critical web applications for organizations in Myanmar, Singapore, and Thailand. Skilled in Laravel/PHP, React, Next.js, Node.js, NestJS, and TypeScript, with experience across fintech, automotive, healthcare, government, and telecommunications. Proven ability to translate business requirements into secure, maintainable solutions, integrate local and international payment systems, collaborate with cross-functional teams, and support reliable production operations.

Skills

Core Technologies

- **Backend:** Node.js, NestJS, Laravel (PHP), REST APIs, GraphQL.
- **Frontend:** JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap.
- **Databases:** MySQL, PostgreSQL, MongoDB.
- **Mobile & CMS:** React Native, Cordova, WordPress.

DevOps & Infrastructure

- **Architecture:** Microservices, Distributed Systems.
- **Tools:** Docker, CI/CD, Nginx, Apache, Git.
- **Cloud:** AWS, DigitalOcean, R2 Cloud Storage.
- **Monitoring:** Datadog.

Development Practices & Delivery

- **Business Analysis & Delivery:** Requirements gathering, stakeholder communication, task estimation, and full-cycle delivery.
- **Engineering Quality:** System design, secure APIs, code reviews, testing, documentation, and risk assessment.
- **Team Collaboration:** Cross-functional coordination, clear technical communication, and structured Git workflows.
- **Release & Operations:** CI/CD coordination, monitoring, incident troubleshooting, and production support.

Professional Experience

02/2025 – 08/2026
Thailand, Remote

Siam Mandalar International, Senior Full-Stack Software Engineer (Contract)

- **Business Platform Delivery:** Built [jpauctionsheet.com](#)  (Laravel, Blade) from business planning through production release for 1,550+ registered users, integrating third-party vehicle-report APIs, credit management, and KBZPay, Stripe, and PayPal payments.
- **Modern Web Platform:** Delivered [autovinhub.com](#)  using Next.js, NestJS, and TypeScript, including OCR-based VIN scanning, external report APIs, online payments, and automated report delivery.
- **Commercial Systems:** Designed multi-currency credit purchases, refund workflows, promotional pricing, audit logs, and secure digital-report delivery across both platforms.
- **Quality & Operations:** Applied structured testing, code review, audit controls, deployment checks, and production troubleshooting to support reliable releases.
- **Stakeholder Collaboration:** Worked directly with business stakeholders to clarify requirements, prioritize features, estimate work, and improve releases using user feedback.

02/2023 – 02/2025
Singapore, Remote

- VIABELLS PTE. LTD, Full-Stack Software Developer (Full-Time)**
- **Platform Modernization:** Supported the migration of SDAX investment workflows from Java Spring WebFlux to Express.js and Next.js while preserving critical investor and issuer functionality.
 - **System Architecture:** Separated investor and issuer domains into independently maintained repositories and developed supporting email and Web3 microservices.
 - **Production Reliability:** Implemented Datadog monitoring and proactive error tracking to improve production visibility and support continuous operations.
 - **Client Delivery:** Delivered a high-performance corporate portfolio for Viabells and a customized WordPress/PHP platform for A.M Skincare.

01/2022 – 02/2023
Yangon, Myanmar

- AGGA.IO Co., Ltd, Software Developer (Full-Time)**
- **Government Platforms:** Built secure national data-collection and disability-information systems with Laravel and React Native, supporting synchronized web and mobile operations for public-sector programs.
 - **Healthcare Systems:** Delivered clinic and laboratory management platforms with Laravel and Vue.js to support patient tracking, laboratory workflows, and diagnostic reporting.
 - **Telecom Operations:** Extended the IQnet ISP billing platform and introduced offline Cordova mobile workflows, improving continuity for field teams working with unreliable connectivity.

12/2021 – 01/2022
Myanmar, Remote

- HeinLearn, Backend Developer (Volunteer)**
- **School Management Platform:** Designed a Laravel backend and responsive Bootstrap workflows for a scalable education management system.

06/2021 – 10/2021
Yangon, Myanmar

- Marvellous Software Solution, Junior Full-Stack Developer (OJT)**
- **Full-Stack Delivery:** Built maintainable web features in a cross-functional team, translating requirements into releases and meeting project milestones.

06/2019 – 01/2020
Yangon, Myanmar

- I-See Media, WordPress Developer (Intern)**
- **CMS Delivery:** Built and customized WordPress content-management systems for multiple clients, giving non-technical teams intuitive control over website content.

Education

- 07/2020 **BSc in Business Information Technology, University of Greenwich (UK)**
- 03/2019 **HND in Software Development, Scottish Qualifications Authority (Scotland)**
