Profile

Senior Full-Stack Developer with 5+ years of experience building modern, scalable, and user-friendly web applications. Skilled in Laravel, NestJS, React, Next.js, TypeScript, and cloud technologies, with experience working on fintech, streaming, healthcare, and management systems. Passionate about solving problems, learning new technologies, and creating clean and reliable solutions. A fast learner and team player who enjoys working in collaborative environments and building products that make a real impact.

Professional Experience

11/2024 – Present
Thailand, Remote

Siam Mandalar International, *Full-stack Developer (Contract/Part Time)*

- **Car History Check:** Built [jpauctionsheets.com](#) 🔗, a Laravel-based vehicle history platform with VIN checking, user/admin dashboards, OTP authentication, credit packages, Stripe/PayPal/KBZ Pay payments, PDF report generation, email delivery, blogs, feedback, and transaction tracking.
- **AutoVIN Hub:** Developed [autovinhub.com](#) 🔗, a Next.js and TypeScript VIN report platform connected to Laravel APIs, enabling users to scan VIN images, check Carfax/AutoCheck availability, purchase report credits with Stripe, generate vehicle history reports, and manage report history.

02/2025 – 05/2026
Thailand, Remote

XynoTech, *Full Stack Developer (Fulltime)*

- **Streaming Architecture:** Deployed a high-speed **Movie Streaming Platform** using **NestJS, Next.js, and R2 Cloud Storage** to optimize delivery and storage costs.

02/2023 – 02/2025
Singapore, Remote

VIABELLS PTE. LTD., *Full-stack Software Developer (Fulltime)*

- **System Migration:** Contributed to the transition of the **SDAX investment platform** from **Java Spring WebFlux** to **Express.js/Next.js**.
- **Microservices Architecture:** Split the platform into separate repositories for investor and issuer modules to improve performance.
- **Service Integrations:** Built and maintained standalone microservices for automated email sending and Web3 features.
- **Reliability:** Integrated **Datadog** for real-time monitoring and proactive error tracking to ensure 24/7 system availability.
- **Custom Solutions:** Developed a high-performance portfolio for **Viabells** and a custom **WordPress/PHP** ecosystem for **A.M Skincare**.

01/2022 – 02/2023
Yangon, Myanmar

AGGA.IO Co., Ltd., *Software Developer (Fulltime)*

- **Data Collection System:** Built a high-security data collection platform for the **Ministry of Union Government** using **Laravel and React Native**, enabling synchronized web and mobile data entry.
- **Disabilities Information System:** Developed a centralized web and mobile management system to improve accessibility and data accuracy for national disability records.
- **Healthcare Solutions:** Engineered **Clinic and Lab Management Systems** using **Laravel and Vue.js**, streamlining patient tracking and diagnostic reporting for medical facilities.
- **Telecom Infrastructure:** Optimized the **IQnet ISP Billing System** by implementing new features and **offline mobile support** via **Cordova** to ensure service continuity.

12/2021 – 01/2022 Myanmar, Remote	HeinLearn, Backend Developer (Volunteer) • Educational Infrastructure: Designed a School Management System backend using Laravel and PHP, delivering a scalable platform with a responsive Bootstrap interface.
06/2021 – 10/2021 Yangon, Myanmar	Marvellous Software Solution, Full-Stack Junior Developer (OJT) • Collaborative Development: Contributed to the development of scalable web applications while collaborating closely with cross-functional teams to meet project milestones.
06/2019 – 01/2020 Yangon, Myanmar	I-See Media, WordPress Developer (Intern) • Custom CMS Development: Architected and customized Content Management Systems for diverse clients, focusing on intuitive interfaces that allowed non-technical users to manage digital content efficiently.

Education

07/2020	BSc in Business Information Technology, University of Greenwich (UK)
03/2019	HND in Software Development, Scottish Qualifications Authority (Scotland)

Skills
