PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 5+ years of experience delivering business applications across Myanmar, Singapore, and Thailand, from requirements and planning to system design and end-user release. Hands-on with Laravel/PHP, React, Next.js, Node.js, NestJS, and TypeScript across fintech, automotive, healthcare, government, and telecom. Experienced in local and international payment integrations. Uses AI-assisted development with code review and testing, and supports production reliability through monitoring and troubleshooting.

SKILLS

Core Technologies

- **Backend:** Node.js, NestJS, Laravel (PHP), REST APIs, GraphQL.
- **Frontend:** JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap.
- **Databases:** MySQL, PostgreSQL, MongoDB.
- **Mobile & CMS:** React Native, Cordova, WordPress.

DevOps & Infrastructure

- **Architecture:** Microservices, Distributed Systems.
- **Tools:** Docker, CI/CD, Nginx, Apache, Git.
- **Cloud:** AWS, DigitalOcean, R2 Cloud Storage.
- **Monitoring:** Datadog.

Development Practices & Delivery

- **End-to-End Ownership:** Business requirement mapping, task estimation, full-cycle delivery.
- **Technical Quality:** System design, secure APIs, code reviews, and risk checks.
- **AI-Assisted Development:** AI-assisted coding, automated review, test generation, rapid prototyping.
- **Support & Reliability:** Seamless releases, error tracking, and production support.

PROFESSIONAL EXPERIENCE

02/2025 – 08/2026
Thailand, Remote

Siam Mandalar International, Full-Stack Developer (Contract)

- **Laravel Platform:** Built jpauctionsheets.com 🌐 (Laravel, Blade) end-to-end from initial business plan to end-user release for 1,550+ registered users, integrating 3rd-party vehicle report reseller APIs, credit management, and payment processing (**KBZPay, Stripe, PayPal**).
- **Next.js & NestJS Platform:** Delivered autovinhub.com 🌐 (Next.js, NestJS, TypeScript) from product concept to launch, incorporating **OCR-based VIN image scanning**, 3rd-party report reseller APIs, payment processing (**Stripe, PayPal**), and automated report delivery.
- **Core Business & Payment Systems:** Architected full-cycle business logic across both platforms—implementing multi-currency credit purchase engines, refund workflows, promotional pricing, audit logs, and secure report delivery.
- **AI-Augmented Delivery:** Utilized AI workflows to accelerate end-to-end development from planning to deployment; implemented AI translations and support draft tools with human review workflows and prompt-injection safeguards.
- **Planning & Delivery:** Worked with business stakeholders to define requirements, prioritize features, estimate tasks, and deliver releases through testing, deployment, and user feedback.

02/2023 – 02/2025
Singapore, Remote

- VIABELLS PTE. LTD, Full-Stack Software Developer (Full-Time)**
- **Platform Modernization:** Contributed to migrating SDAX investment workflows from Java Spring WebFlux to Express.js and Next.js while maintaining investor and issuer functionality.
 - **Architecture:** Separated investor and issuer domains into independently maintained repositories and built supporting email and Web3 microservices.
 - **Reliability:** Implemented Datadog monitoring and proactive error tracking for production visibility and 24/7 operations.
 - **Client Delivery:** Built a high-performance Viabells portfolio and a custom WordPress/PHP platform for A.M Skincare.

01/2022 – 02/2023
Yangon, Myanmar

- AGGA.IO Co., Ltd, Software Developer (Full-Time)**
- **Government Platforms:** Built secure national data-collection and disability information systems with Laravel and React Native, enabling synchronized web and mobile operations.
 - **Healthcare Systems:** Delivered clinic and laboratory management platforms with Laravel and Vue.js for patient tracking and diagnostic reporting.
 - **Telecom Continuity:** Extended the IQnet ISP billing platform and added offline Cordova mobile workflows to support field operations with unreliable connectivity.

12/2021 – 01/2022
Myanmar, Remote

- HeinLearn, Backend Developer (Volunteer)**
- **School Management Platform:** Designed a Laravel backend and responsive Bootstrap workflows for a scalable education management system.

06/2021 – 10/2021
Yangon, Myanmar

- Marvellous Software Solution, Junior Full-Stack Developer (OJT)**
- **Full-Stack Delivery:** Built maintainable web features in a cross-functional team, translating requirements into releases and meeting project milestones.

06/2019 – 01/2020
Yangon, Myanmar

- I-See Media, WordPress Developer (Intern)**
- **CMS Delivery:** Built and customized WordPress content-management systems for multiple clients, giving non-technical teams intuitive control over website content.

EDUCATION

- 07/2020 **BSc in Business Information Technology, University of Greenwich (UK)**
- 03/2019 **HND in Software Development, Scottish Qualifications Authority (Scotland)**

CERTIFICATES

- Professional Web Developer – Fairway Technology (Jun 2019)
- Rockstar Developer – Fairway Technology (Feb 2023)
- DevOps Delivery – Dev KT Ops (Feb 2024)
